

THIRRILI

Model of Care, Connection and Practice

To the Bunuba, Thirrili means **power and strength**, this is the essence of Thirrili.

Through our ancient and collective knowing we draw from our deep ancestral connection to country; we derive strength and power from her in all ways. We honour this connection that reminds us of our sovereignty, working in ways that respect and rekindle our cultural values of relationship and reciprocity. Through the healing smoke from fire, we find space to remember peace and hope, bringing new days to our old ways.
